

***Resident Physician of the Month***  
***May 2016***

**Dr. Kim Paulson**  
**PGY 3, Radiation Oncology**  
**University of Alberta**

Although raised in Edmonton and currently a resident in Radiation Oncology at the University of Alberta, Kim has had a true peripatetic education. She did a BSc at UBC Vancouver and a MSc at Toronto before doing her medical training at the Victoria site of the UBC medical program and then home to Edmonton to do her residency, where she is currently in her third year. Her main interests outside of work include movie nights, cooking and eating, and (fortunately) being active with running, yoga, and hiking.

A colleague had this to say about Dr. Paulson:

*“Besides being a caring and hard-working resident, Kim demonstrates an admirable ability to balance a healthy lifestyle (cycling, running, yoga) with going above and beyond with projects of interest (mentoring high school students, presenting on behalf of the program and sitting on the residents Planning committee). She is consistently positive and encouraging of medical students and colleagues, and never hesitates to go out of her way to help others out.”*

**Congratulations Dr. Paulson!**
