

### **Resident Physician of the Month January 2017**

**Dr. Simone Lebeuf**  
PGY 3, Pediatrics  
University of Calgary

I have a nine-year-old daughter, Abbie, who is my biggest supporter! We started out in my hometown of Edmonton, where I completed my B.Sc. in Psychology at the University of Alberta. We moved to Calgary for medical school. I fell in love with the Alberta Children's Hospital and living so close to the mountains, so I decided to stay for residency!

I am now in my third year of Pediatrics. I will be starting an Adolescent Medicine fellowship at Sick Kids in Toronto this July. I'm passionate about advocacy and am so proud of all the work my co-resident physicians put into improving our community!

Outside of work, I spend most of my time with Abbie, hiking and camping in the summer, and cross-country skiing in the winter. We spend a lot of time reading and we love to travel!

A colleague had this to say about Dr. Lebeuf:

*"Simone Lebeuf, simply put, is one of the very best. Very few resident physicians display the perfect combination of intelligence, compassion, and professionalism that makes them ideal physicians; Simone does."*

*Since she began her residency in pediatrics at the University of Calgary, she has gone out of her way to make and create quality-of-life improvement measures for resident physicians, medical students and patients at the Alberta Children's Hospital (ACH). For the past two years, she has helped steer the ACH's Residency Wellness Committee working to bring a focus to resident well-being and camaraderie in the department's academic programming. Additionally, she is the Co-Chair of the ACH Residency Advisory Committee helping implement resident physician initiatives that help improve the lives of patients, both inside and outside the hospital and fostering a strong sense of community.*

*In the hospital, Simone is adored by patients, families, and co-workers as one of the most hard working and kindest resident physician on the service. In addition to all her work in medicine, Simone is the busy mom of an amazing nine-year-old and actively getting her daughter involved in sports, the arts and the outdoors. She truly is one of the best."*

**Congratulations Dr. Lebeuf!**
